

EDUCATION

• **Bachelor of Technology in Computer Science and Engineering**

Aug. 2023 – Aug. 2027

Pimpri Chinchwad University, Pune

CGPA: 7.2

PERSONAL PROJECTS

• **FarmLens – AI Crop Disease Detection System**

A cloud-based AI platform for crop disease detection using computer vision and machine learning.

- Built an end-to-end platform for data ingestion, transformation, and leaf image classification for crop disease detection.
- Designed and integrated a FastAPI backend handling the pipeline from mobile input to model prediction output.
- Implemented machine learning and computer vision workflows with structured storage of prediction records.
- Technology Used: Python, FastAPI, Flutter, OpenCV, Node.js, SQL.

• **Pharmacy Management System**

A full-stack pharmacy management system for inventory, patients, suppliers, POS, and receipts.

- Built a full-stack application with JWT-based authentication and role-based access control.
- Implemented 6+ CRUD modules covering inventory, patients, suppliers, POS, and receipts.
- Designed a normalized relational MySQL database for managing records and purchase history.
- Technology Used: React, TypeScript, Node.js, Express, MySQL.

EXPERIENCE

• **Bhoomitrace**

June 2026 – Present

Full Stack Engineer Intern

Pune, India

- Developing production web and mobile applications using React and React Native across user-facing and business workflows.
- Integrated Setu KYC APIs and Google Authentication to support secure identity verification and user onboarding.
- Implemented backend Razorpay payment reconciliation workflows for payment verification and synchronization of payment and order states.
- Developed and integrated REST APIs and features including watchlists, notifications, builder onboarding, and property listings.
- Worked with FastAPI, Python, Docker, Cloudflare, Git, GitHub, and production debugging across frontend and backend systems.

• **Raftaar**

Jan. 2025 – Feb. 2025

Freelance Frontend Developer

Remote

- Developed and deployed a responsive company website using HTML, CSS, JavaScript, and React.
- Collaborated with the client to implement UI requirements and improve overall user experience.
- Optimized responsiveness and layout compatibility across desktop and mobile devices.

• **AICTE & EduSkills**

Oct. 2024 – Dec. 2024

Altair Data Science Virtual Intern

Remote

- Performed data preprocessing, data exploration, and interpretation tasks as part of end-to-end data science workflows.
- Applied ETL concepts and data transformation techniques to prepare datasets for analysis.

• **AICTE & EduSkills**

Jan. 2025 – Mar. 2025

Zscaler Cloud Security Virtual Intern

Remote

- Analyzed enterprise-level access control and threat mitigation scenarios using cloud security frameworks.
- Explored Zero Trust Cloud Security architecture with focus on data protection and secure access policies.

• **AICTE & EduSkills**

Apr. 2025 – Jun. 2025

Google Android Development Virtual Intern

Remote

- Designed Android UI components following platform best practices.
- Worked with Android development fundamentals and mobile application design.

TECHNICAL SKILLS AND INTERESTS

Languages: Python, C++, JavaScript, SQL
Libraries : React, React Native, OpenCV, Python Libraries
Web Dev Tools: Node.js, VS Code, Git, GitHub, Docker
Frameworks: React, React Native, FastAPI, Django
Cloud/Databases: MySQL, PostgreSQL, MongoDB, Firebase, Cloudflare
Relevant Coursework: Data Structures & Algorithms, Operating Systems, Object Oriented Programming, Database Management Systems, Web Development, Internet of Things.
Areas of Interest: Full Stack Development, Backend Development, Frontend Development, Mobile Application Development, AI/ML, Computer Vision.
Soft Skills: Problem Solving, Self-learning, Adaptability, Team Collaboration

POSITIONS OF RESPONSIBILITY

- Design Team Member / Volunteer** ACM – Pimpri Chinchwad University *Aug. 2024 – May 2025*
 - Designed digital posters and creatives for technical and community events.
 - Volunteered in planning and execution of technical and community events.
 - Coordinated with team members to translate requirements into deliverables.
